Note 1 – Significant Accounting Policies

Interim Financial Statements. Brunswick's unaudited interim condensed consolidated financial statements have been prepared pursuant to SEC rules and regulations. Therefore, certain information and disclosures normally included in financial statements and related notes prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) have been condensed or omitted.

These financial statements should be read in conjunction with, and have been prepared in conformity with, the accounting principles reflected in the consolidated financial statements and related notes included in Brunswick's 2023 Annual Report on Form 10-K for the year ended December 31, 2023 (the 2023 Form 10-K). These results include, in management's opinion, all normal and recurring adjustments necessary to present fairly Brunswick's financial position, results of operations and cash flows. Due to the seasonality of Brunswick's businesses, the interim results are not necessarily indicative of the results that may be expected for the remainder of the year.

The Company maintains its financial records on the basis of a fiscal year ending on December 31, with the fiscal quarters spanning approximately thirteen weeks. The first quarter ends on the Saturday closest to the end of the first thirteen-week period. The second and third quarters are thirteen weeks in duration and the fourth quarter is the remainder of the year. The first quarter of fiscal year 2024 ended on March 30, 2024 and the first quarter of fiscal year 2023 ended on April 1, 2023.

Recently Issued Accounting Standards

Segment Reporting: In November 2023, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2023-07, *Segment Reporting (Topic 280) — Improvements to Reportable Segment Disclosures*, which adds new disclosure requirements related to significant segment expenses regularly provided to the chief operating decision maker (CODM) and included in each reported measure of segment profit or loss, other segment items that constitute the difference between segment revenues less significant segment expenses and the measure of profit or loss, disclosure of the CODMs title and position as well as an explanation of how the CODM uses the reported measures and expanded interim disclosures. ASU 2023-07 is effective for financial statements for annual periods beginning after December 15, 2023 and interim periods within fiscal years beginning after December 15, 2024. We are currently evaluating the potential impact of adopting this guidance on the consolidated financial statements.

Income Taxes: In December 2023, the FASB issued ASU 2023-09, *Income Taxes (Topic 740) — Improvements to Income Tax Disclosures*. Under this ASU, entities must disclose, on an annual basis, specific categories in the rate reconciliation and provide additional information for reconciling items that meet a quantitative threshold. In addition, ASU 2023-09 requires entities to disclose additional information about income taxes paid. ASU 2023-09 is effective for financial statements for annual periods beginning after December 15, 2024. We are currently evaluating the potential impact of adopting this guidance on the consolidated financial statements.

Note 4 – Acquisitions

2023 Acquisitions

During the fourth quarter of 2023, the Company acquired additional Freedom Boat Club franchise operations and territories in the Southeast United States. These acquisitions should unlock operational efficiencies while providing members with additional boating destinations, as the Company plans for continued expansion across the Southeast Coastal region. These acquisitions are included as part of the Company's Boat segment.

The Company paid net cash consideration of \$ 16.0 million for these acquisitions. The opening balance sheets, which are preliminary and subject to change in the measurement period as the Company finalizes the purchase price allocation and fair value estimates, include \$13.9 million of goodwill and \$ 3.3 million of customer relationships. The amount assigned to customer relationships will be amortized over the estimated useful life of 10 years. Transaction costs associated with these acquisitions were not material to the Company's consolidated results of operations.

On September 1, 2023, the Company acquired all of the issued and outstanding shares of Fliteboard Pty Ltd (Fliteboard) for \$ 88.3 million net cash consideration. Fliteboard is a leader in eFoiling technology, which combines advanced hydrofoils and electric propulsion on the water. The acquisition of Fliteboard allows the Company to enter the emerging electric-foiling surfboard market and presents the opportunity for technological, manufacturing, commercial and consumer synergies with our existing portfolio. Fliteboard is included as part of the Company's Propulsion segment.

The effective tax rate for the three months ended March 30, 2024 was lower than the same period in the prior year, primarily due to the prior year intercompany sale of certain intellectual property rights from one of our affiliates in Norway to the United States and lower pretax income in high tax jurisdictions.

The Company has evaluated the effects of the Global Anti-Base Erosion Model Rules set forth by the Organization for Economic Co-operation and Development (OECD), referred to as “Pillar Two”, which establishes a global minimum corporate tax rate of 15 percent. The Company has determined that Pillar Two legislation has been enacted in one or more of the jurisdictions in which we operate and the Company is within the scope of the legislation. The Company assessed such enacted legislation, and, as applicable, the Transitional Safe Harbor provisions of Pillar Two, and concluded that the tax effects are not material to the financial statements.

The Company is regularly audited by federal, state and foreign tax authorities. The Internal Revenue Service (IRS) has completed its field examination and has issued its Revenue Agents Report through the 2014 tax year and all open issues have been resolved. The Company is currently open to tax examinations by the IRS for the 2020 through 2022 tax years. The Company is open to state and local tax audits in major tax jurisdictions dating back to the 2017 taxable year. A "non-GAAP financial measure" is a numerical measure of a registrant's historical or future financial performance, financial position or cash flows that excludes amounts, or is subject to adjustments that have the effect of excluding amounts, that are included in the most directly comparable measure calculated and presented in accordance with GAAP in the consolidated statements of operations, balance sheets or statements of cash flows of the issuer; or includes amounts, or is subject to adjustments that have the effect of including amounts, that are excluded from the most directly comparable measure so calculated and presented. For example, the discussion of our cash flows includes an analysis of free cash flows and total liquidity; the discussion of our net sales includes net sales on a constant currency basis; the discussion of our net sales includes net sales excluding acquisitions; and the discussion of our earnings includes a presentation of operating earnings and operating margin excluding restructuring, exit and impairment charges, purchase accounting amortization, acquisition, integration, and IT related costs, IT security incident costs and other applicable charges and of diluted earnings per common share, as adjusted. Non-GAAP financial measures do not include operating and statistical measures.

We include non-GAAP financial measures in Management's Discussion and Analysis as management believes these measures and the information they provide are useful to investors because they permit investors to view our performance using the same tools that management uses to evaluate our ongoing business performance. In order to better align our reported results with the internal metrics management uses to evaluate business performance as well as to provide better comparisons to prior periods and peer data, non-GAAP measures exclude the impact of purchase accounting amortization related to acquisitions, among other adjustments.

We do not provide forward-looking guidance for certain financial measures on a GAAP basis because we are unable to predict certain items contained in the GAAP measures without unreasonable efforts. These items may include restructuring, exit and impairment costs, special tax items, acquisition-related costs, and certain other unusual adjustments.

Acquisitions

During the fourth quarter of 2023, we acquired additional Freedom Boat Club franchise operations and territory rights as well as certain marine assets in the Southeast United States for net cash consideration of \$16.0 million. On September 1, 2023, the Company acquired all of the issued and outstanding shares of Fliteboard for \$88.3 million net cash consideration. Refer to **Note 4 – Acquisitions** in the Notes to Condensed Consolidated Financial Statements for further information.

Overview

Net sales decreased 22 percent during the first quarter of 2024 when compared with the first quarter of 2023. Our Propulsion segment delivered lower sales and operating earnings versus a record first quarter of 2023, as boat manufacturers and dealers moderated orders and managed production of current model-year products and pipelines ahead of the retail season and model-year change-over. However, the Propulsion segment continued to outperform the industry, gaining 200 basis points of U.S. outboard engine market share versus the first quarter of 2023. Our Engine Parts and Accessories (Engine P&A) segment continued its steady performance with sales and operating earnings down modestly from the first quarter of 2023 as anticipated, but increasing sequentially over the prior quarter. As expected, our Navico Group segment had lower sales and operating earnings versus the first quarter of 2023, but delivered sequential sales and operating earnings increases over the prior quarter. Our Boat segment performed to plan, with exceptional retail performance by Boston Whaler and Sea Ray at early season boat shows, while continuing to introduce new models to support market share gains. Sales and operating earnings were below prior year, consistent with lower planned production levels, while operating margins improved sequentially over the prior quarter. Our international net sales decreased 19 percent in the first quarter on a GAAP and constant currency basis when compared to the prior year quarter.

Operating earnings in the first quarter of 2024 were \$110.6 million and \$141.5 million on a GAAP and As Adjusted basis, respectively. This compares to operating earnings during the first quarter of 2023 of \$236.1 million and \$262.4 million on a GAAP and As Adjusted basis, respectively.

Matters Affecting Comparability

Changes in Foreign Currency Rates. Percentage changes in net sales expressed in constant currency reflect the impact that changes in currency exchange rates had on comparisons of net sales. To determine this information, net sales transacted in currencies other than the U.S. dollar have been translated to U.S. dollars using the average exchange rates that were in effect during the comparative period. The percentage change in net sales expressed on a constant currency basis better reflects the changes in the underlying business trends, excluding the impact of translation arising from foreign currency exchange rate fluctuations. Approximately 25 percent of our annual net sales are transacted in a currency other than the U.S. dollar. Our most material exposures include sales in Euros, Canadian dollars, Australian dollars, and Brazilian real.

The table below summarizes the impact of changes in currency exchange rates and also the impact of acquisitions on our net sales:

(in millions)	Three Months Ended

The following is a reconciliation of our non-GAAP measures, adjusted operating earnings and adjusted diluted earnings per common share from continuing operations for the three months ended March 30, 2024 when compared with the same prior year comparative period:

(in millions, except per share data)	Three Months Ended

(A) We incurred non-recurring costs related to the 2023 IT security incident during the three months ended March 30, 2024.

Net sales decreased 22 percent during the first quarter when compared with the same prior year period. The components of the consolidated net sales change were as follows:

	Percent change in net sales compared to the prior comparative period
	March 30, 2024
	Three Months Ended
Volume	(23.3) %
Product Mix and Price	1.0 %
Currency	0.1 %
Acquisitions	0.5 %
	(21.7) %

Gross margin decreased 160 basis points in the first quarter of 2024 when compared to the same prior year period, driven by higher manufacturing costs including absorption (75 bps), material and labor inflation (65 bps), unfavorable foreign currency exchange-rate fluctuations (50 bps) and depreciation (15 bps), partially offset by sales-related drivers (35 bps) and acquisitions (10 bps).

Selling, general and administrative expense as a percentage of net sales increased 280 basis points during the first quarter of 2024 when compared with the same prior year period, due to lower sales (340 bps), partially offset by lower employee compensation costs associated with headcount reductions (60 bps). Research and development expense decreased in the first quarter of 2024 versus the same period in 2023.

We recorded Restructuring, exit and impairment charges of \$13.5 million and \$9.5 million during the three months ended March 30, 2024 and April 1, 2023, respectively. We estimate the first quarter 2024 actions will result in approximately \$12 million of annualized cost savings. Refer to **Note 3 – Restructuring, Exit and Impairment Activities** in the Notes to Condensed Consolidated Financial Statements for further information.

We recorded Equity earnings of \$2.5 million and \$2.2 million in the three months ended March 30, 2024 and April 1, 2023, respectively, which were primarily related to our marine and technology-related joint ventures.

We recognized \$0.0 million and \$(0.9) million of Other expense, net in the three months ended March 30, 2024 and April 1, 2023, respectively. Other expense, net primarily includes remeasurement gains and losses resulting from changes in foreign currency rates and other postretirement benefit costs.

Net interest expense increased for the three months ended March 30, 2024 when compared with the same prior year period due to an increase in average daily debt outstanding, which was influenced by the timing of debt issuances. Refer to **Note 12 – Debt** in the Notes to Condensed Consolidated Financial Statements and Note 14 – Debt in the Notes to Consolidated Financial Statements in the 2023 Form 10-K.

We recognized an income tax provision for the three months ended March 30, 2024 of \$18.6 million, compared to \$99.0 million for the three months ended April 1, 2023. The decrease in the income tax provision for the three months ended March 30, 2024 is due to a discrete income tax expense recorded in connection with the intercompany sale of intellectual property rights in the first quarter of 2023. We have also evaluated the effects of Pillar Two legislation and concluded that the tax effects are not material to the financial statements. Refer to **Note 11 – Income Taxes** in the Notes to Condensed Consolidated Financial Statements for further information.

The effective tax rate, which is calculated as the income tax provision as a percentage of earnings before income taxes, was 21.4 percent and 46.8 percent for the three months ended March 30, 2024 and April 1, 2023, respectively.

Due to the factors described in the preceding paragraphs, operating earnings, net earnings from continuing operations, and diluted earnings per common share from continuing operations decreased during the three months ended March 30, 2024 when compared with the same prior year period.

Propulsion Segment

The following table sets forth Propulsion segment results and a reconciliation to our non-GAAP measure of adjusted operating earnings for the three months ended:

(in millions)	Three Months Ended		2024 vs. 2023	
	March 30, 2024	April 1, 2023	\$ Change	% Change
Net sales	\$ 578.2	\$ 751.6	\$ (173.4)	(23.1)%

Propulsion segment's net sales decreased \$173.4 million, or 23 percent, in the first quarter of 2024 compared to the first quarter of 2023, as boat manufacturers and dealers moderated order patterns, managing production of current model-year products and pipelines ahead of the retail season and model-year change-over.

The components of the Propulsion segment's net sales change were as follows:

	Percent change in net sales compared to the prior comparative period	
	March 30, 2024	
	Three Months Ended	
Volume	(22.3) %	
Product Mix and Price	(1.7) %	
Currency	0.1 %	
Acquisitions	0.8 %	
	(23.1) %	

International sales were 35 percent of the Propulsion segment's net sales in the first quarter of 2024 and decreased 22 percent year over year on a GAAP and constant currency basis.

Propulsion segment's operating earnings in the first quarter of 2024 were \$82.8 million, a decrease of 45 percent when compared to the first quarter of 2023, as prior year pricing gains and aggressive cost control measures partially offset the impact of lower sales, unfavorable changes in foreign currency exchange rates, the lapping of prior year favorable variances related to timing of capitalized inventory, and lower absorption from reduced production.

Engine P&A Segment

The following table sets forth Engine P&A segment results and a reconciliation to our non-GAAP measure of adjusted operating earnings for the three months ended:

(in millions)	Three Months Ended		2024 vs. 2023	
	March 30, 2024	April 1, 2023	\$ Change	% Change
Net sales	\$ 262.4	\$ 288.6	\$ (26.2)	(9.1)%
GAAP operating earnings	\$ 33.2	\$ 47.8	\$ (14.6)	(30.5)%
Restructuring, exit and impairment charges	3.3	0.7	2.6	NM
Adjusted operating earnings	\$ 36.5	\$ 48.5	\$ (12.0)	(24.7)%
GAAP operating margin	12.7 %	16.6 %		(390) bps
Adjusted operating margin	13.9 %	16.8 %		(290) bps

NM = not meaningful
bps = basis points

Engine P&A segment's net sales decreased \$26.2 million, or 9 percent, in the first quarter of 2024 compared to the first quarter of 2023, due to lower sales in our Product and Distribution businesses. However, sales in both businesses improved sequentially over the prior quarter.

The components of the Engine P&A segment's net sales change were as follows:

	Percent change in net sales compared to the prior comparative period	
	March 30, 2024	
	Three Months Ended	
Volume		(10.2) %
Product Mix and Price		1.2 %
Currency		(0.1) %
		(9.1) %

International sales were 32 percent of the Engine P&A segment's net sales in the first quarter of 2024 and decreased 3 percent year over year on a GAAP and constant currency basis.

Engine P&A segment's operating earnings in the first quarter of 2024 were \$33.2 million, a decrease of 31 percent compared to the first quarter of 2023, due to the sales declines which more than offset the impact of pricing and cost control.

Navico Group Segment

The following table sets forth Navico Group segment results and a reconciliation to our non-GAAP measure of adjusted operating earnings for the three months ended:

(in millions)	Three Months Ended		2024 vs. 2023	
	March 30, 2024	April 1, 2023	\$ Change	% Change
Net sales	\$ 210.9	\$ 277.3	\$ (66.4)	(23.9)%
GAAP operating (loss) earnings	\$ (2.4)	\$ 12.8	\$ (15.2)	NM

Acquisition, integration, and IT related costs	1.6	0.8	0.8	NM
Adjusted operating earnings	\$ 15.1	\$ 30.5	\$ (15.4)	(50.5)%
GAAP operating margin	(1.1)%	4.6 %		(570) bps
Adjusted operating margin	7.2 %	11.0 %		(380) bps

NM = not meaningful
bps = basis points

Navico Group segment's net sales decreased \$66.4 million, or 24 percent, in the first quarter of 2024 compared to the first quarter of 2023, driven by reduced sales to marine OEMs as they moderate orders to control the pipeline of their current model-year products, partially offset by strong new product momentum and slightly improved RV sales trends.

The components of the Navico Group segment's net sales change were as follows:

	Percent change in net sales compared to the prior comparative period	
	March 30, 2024	
	Three Months Ended	
Volume		(23.4) %
Product Mix and Price		(0.7) %
Currency		0.2 %
		(23.9) %

International sales were 41 percent of the Navico Group segment's net sales in the first quarter of 2024 and decreased 8 percent year over year on a GAAP basis. On a constant currency basis, international sales decreased 9 percent.

Navico Group segment's operating loss in the first quarter of 2024 was \$ 2.4 million, a decrease from operating earnings of \$ 12.8 million in the first quarter of 2023, as the impact from lower sales and increased discount activity was partially offset by lower operating expenses.

Boat Segment

The following table sets forth Boat segment results and a reconciliation to our non-GAAP measure of adjusted operating earnings for the three months ended:

(in millions)	Three Months Ended		2024 vs. 2023	
	March 30, 2024	April 1, 2023	\$ Change	% Change
Net sales	\$ 425.7	\$ 575.2	\$ (149.5)	(26.0)%

GAAP operating margin	6.9 %	10.0 %		(310) bps
Adjusted operating margin	7.4 %	10.6 %		(320) bps

bps = basis points

Boat segment's net sales decreased \$149.5 million, or 26 percent, in the first quarter of 2024 compared to the first quarter of 2023, due to softer wholesale orders, as its channel partners continue to order cautiously ahead of the model-year change-over, partially offset by the favorable impact of carry-over pricing and share gains.

The components of the Boat segment's net sales change were as follows:

	Percent change in net sales compared to the prior comparative period	
	March 30, 2024	
	Three Months Ended	
Volume	(26.0)	%
Product Mix and Price	(0.4)	%
Currency	0.1	%

Boat segment's operating earnings in the first quarter of 2024 were \$29.4 million, a decrease of 49 percent when compared to the first quarter of 2023, due to lower sales and lower absorption from reduced production, partially offset by focused cost reduction activities.

Corporate/Other

The following table sets forth Corporate/Other results and a reconciliation to our non-GAAP measure of adjusted operating loss for the three months ended:

(in millions)	Three Months Ended		2024 vs. 2023	
	March 30, 2024	April 1, 2023	\$ Change	% Change
GAAP operating loss	\$ (32.4)	\$ (33.4)	\$ 1.0	(3.0)%

Corporate operating loss in the first quarter of 2024 was \$32.4 million, a decrease of 3 percent when compared to the first quarter of 2023, driven by lower restructuring, exit and impairment charges.

Cash Flow, Liquidity and Capital Resources

The following table sets forth an analysis of free cash flow for the three months ended:

(in millions)	March 30, 2024	April 1, 2023
Net cash used for operating activities of continuing operations	\$ (148.1)	\$ (14.5)
Net cash (used for) provided by:		
Plus: Capital expenditures	(54.0)	(93.5)
Plus: Proceeds from the sale of property, plant and equipment	2.3	2.7
Plus: Effect of exchange rate changes on cash and cash equivalents	(4.7)	1.7
Total free cash flow ^(A)	<u>\$ (204.5)</u>	<u>\$ (103.6)</u>

(A) We define "Free cash flow" as cash flow from operating and investing activities of continuing operations (excluding cash provided by or used for acquisitions, investments, purchases or sales/maturities of marketable securities and other investing activities, net of tax) and the effect of exchange rate changes on cash and cash equivalents. Free cash flow is not intended as an alternative measure of cash flow from operations, as determined in accordance with GAAP in the United States. We use this financial measure both in presenting our results to shareholders and the investment community and in our internal evaluation and management of our businesses. We believe that this financial measure and the information it provides are useful to investors because it permits investors to view our performance using the same tool that we use to gauge progress in achieving our goals. We believe that the non-GAAP financial measure "Free cash flow" is also useful to investors because it is an indication of cash flow that may be available to fund investments in future growth initiatives.

Our major sources of funds for capital investments, acquisitions, share repurchase programs and dividend payments are cash generated from operating activities, available cash and marketable securities balances, divestitures and borrowings. We evaluate potential acquisitions, divestitures and joint ventures in the ordinary course of business.

2024 Cash Flow

Net cash used for operating activities of continuing operations in the three months ended March 30, 2024 totaled \$148.1 million compared to \$14.5 million in the three months ended April 1, 2023. The increase is primarily due to increases in working capital usage and lower net earnings. Working capital is defined as Accounts and notes receivable, Inventories and Prepaid expenses and other, net of Accounts payable and Accrued expenses as presented in the Condensed Consolidated Balance Sheets, excluding the impact of acquisitions and non-cash adjustments.

[Table of Contents](#)

The primary drivers of net cash used for operating activities of continuing operations in the three months ended March 30, 2024 was working capital usage partially offset by net earnings, net of non-cash items. Accounts and notes receivable increased \$130.4 million, primarily due to the timing of collections. Inventory increased \$104.8 million due to seasonal inventory build. Accounts payable decreased \$28.8 million, primarily due to timing of payments. Accrued expenses decreased \$29.6 million, primarily driven by lower accrued variable compensation expense, including the payment of the prior year's variable compensation which had been accrued as of December 31, 2023.

Net cash used for investing activities was \$55.4 million, primarily related to \$54.0 million of capital expenditures. Our capital spending was focused on investments in new products and technologies.

Net cash provided by financing activities was \$294.1 million and primarily related to long-term debt issuances, partially offset by common stock repurchases and cash dividends paid to common shareholders.

2023 Cash Flow

Net cash used for operating activities of continuing operations in the three months ended April 1, 2023 totaled \$14.5 million versus \$140.9 million in the comparable period of 2022. The decrease is primarily due to decreases in working capital usage and income taxes, partially offset by lower net earnings.

The primary drivers of net cash used for operating activities of continuing operations in the three months ended April 1, 2023 were seasonal increases in working capital, partially offset by net earnings, net of non-cash items. Accounts and notes receivable increased \$153.8 million, primarily due to increased sales. Inventory increased \$38.0 million, driven by seasonal inventory purchases and cost inflation. Accounts payable decreased \$59.1 million, primarily due to timing of payments. Accrued expenses decreased \$17.4 million, primarily driven by lower accrued variable compensation expense, including the payment of the prior year's variable compensation which had been accrued as of December 31, 2022.

Net cash used for investing activities was \$94.6 million, which included \$93.5 million of capital expenditures and \$7.6 million of investment in our joint venture, partially offset by \$3.8 million of sales or maturities of marketable securities and \$2.7 million of sales of property, plant and equipment. Our capital spending was focused on investments in capacity expansion, new products and technologies.

Net cash used for financing activities was \$100.9 million and primarily related to common stock repurchases and cash dividends paid to common shareholders.

We view our highly liquid assets as of March 30, 2024, December 31, 2023 and April 1, 2023 as:

The following table sets forth an analysis of total liquidity as of March 30, 2024, December 31, 2023 and April 1, 2023:

(in millions)	March 30, 2024	December 31, 2023	April 1, 2023

(A) See **Note 12 – Debt** in the Notes to Condensed Consolidated Financial Statements for further details on our lending facility.

(B) We define Total liquidity as Cash and cash equivalents and Short-term investments in marketable securities as presented in the Condensed Consolidated Balance Sheets, plus amounts available for borrowing under its lending facilities. Total liquidity is not intended as an alternative measure to Cash and cash equivalents and Short-term investments in marketable securities as determined in accordance with GAAP in the United States. We use this financial measure both in presenting our results to shareholders and the investment community and in our internal evaluation and management of our businesses. We believe that this financial measure and the information it provides are useful to investors because it permits investors to view our performance using the same metric that we use to gauge progress in achieving our goals. We believe that the non-GAAP financial measure “Total liquidity” is also useful to investors because it is an indication of our available highly liquid assets and immediate sources of financing.

Cash, cash equivalents and marketable securities totaled \$549.2 million as of March 30, 2024, an increase of \$80.6 million from \$468.6 million as of December 31, 2023, and an increase of \$160.6 million from \$388.6 million as of April 1, 2023. Total debt as of March 30, 2024, December 31, 2023 and April 1, 2023 was \$2,827.3 million, \$2,430.4 million and \$2,510.3 million, respectively. Our debt-to-capitalization ratio was 58 percent as of March 30, 2024, an increase from 54 percent as of December 31, 2023 and from 55 percent as of April 1, 2023.

There were no borrowings under the Revolving Credit Agreement (Credit Facility) during the three months ended March 30, 2024 and we did not have any borrowings outstanding as of March 30, 2024. Available borrowing capacity under the Credit Facility as of March 30, 2024 totaled \$741.7 million, net of \$8.3 million of letters of credit outstanding. During the three months ended March 30, 2024, the maximum amount utilized under the CP Program was \$225.0 million. Refer to **Note 12 – Debt** in the Notes to Condensed Consolidated Financial Statements and Note 14 - Debt in the Notes to Consolidated Financial Statements in the 2023 Form 10-K, for further details.

The levels of borrowing capacity under our Credit Facility and CP Program are limited by both a leverage and interest coverage test. These covenants also pertain to termination provisions included in our wholesale financing joint-venture arrangements with Wells Fargo Commercial Distribution Finance. Based on our anticipated earnings generation throughout the year, we expect to maintain sufficient cushion against the existing debt covenants.

2024 Capital Strategy

We continue to anticipate full-year capital expenditures of approximately \$225 million. Additionally, we anticipate share repurchases of approximately \$250 million, lowering our expected average diluted shares outstanding for the year to 68 million shares.

Financing Joint Venture

Details of our Financing Joint Venture are outlined in the 2023 Form 10-K. There have been no material changes in our Financing Joint Venture since December 31, 2023.

Off-Balance Sheet Arrangements and Contractual Obligations

Our off-balance sheet arrangements and contractual obligations as of December 31, 2023 are detailed in the 2023 Form 10-K. There have been no material changes in these arrangements and obligations outside the ordinary course of business since December 31, 2023.

Environmental Regulation

There were no material changes in our environmental regulatory requirements since the filing of our 2023 Form 10-K.

Critical Accounting Policies

There were no material changes in our critical accounting policies since the filing of our 2023 Form 10-K.

As discussed in the 2023 Form 10-K, the preparation of the consolidated financial statements in conformity with GAAP requires management to make certain estimates and assumptions that affect the amount of reported assets and liabilities and disclosure of contingent assets and liabilities as of the date of the consolidated financial statements, and revenues and expenses during the periods reported. Actual results may differ from those estimates.

Recent Accounting Pronouncements

Recent accounting pronouncements that have been adopted during the three months ended March 30, 2024, or will be adopted in future periods, are included in **Note 1 – Significant Accounting Policies** in the Notes to Condensed Consolidated Financial Statements.

Forward-Looking Statements

Certain statements in this Quarterly Report on Form 10-Q are forward-looking statements as defined in the Private Securities Litigation Reform Act of 1995. Forward-looking statements are based on current expectations, estimates, and projections about Brunswick's business and by their nature address matters that are, to different degrees, uncertain. Words such as "may," "could," "should," "expect," "anticipate," "project," "position," "intend," "target," "plan," "seek," "estimate," "believe," "predict," "outlook," and similar expressions are intended to identify forward-looking statements. Forward-looking statements are not guarantees of future performance and involve certain risks and uncertainties that may cause actual results to differ materially from expectations as of the date of this report. These risks include, but are not limited to: the effect of adverse general economic conditions, including rising interest rates, and the amount of disposable income consumers have available for discretionary spending; changes in currency exchange rates; fiscal and monetary policy changes; adverse capital market conditions; competitive pricing pressures; higher energy and fuel costs; managing our manufacturing footprint and operations; loss of key customers; international business risks, geopolitical tensions or conflicts, sanctions, embargoes, or other regulations; actual or anticipated increases in costs, disruptions of supply, or defects in raw materials, parts, or components we purchase from third parties; supplier manufacturing constraints, increased demand for shipping carriers, and transportation disruptions; adverse weather conditions, climate change events and other catastrophic event risks; our ability to develop new and innovative products and services at a competitive price; our ability to meet demand in a rapidly changing environment; absorbing fixed costs in production; public health emergencies or pandemics, such as the coronavirus (COVID-19) pandemic; risks associated with joint ventures that do not operate solely for our benefit; our ability to successfully implement our strategic plan and growth initiatives; attracting and retaining skilled labor, implementing succession plans for key leadership, and executing organizational and leadership changes; our ability to integrate acquisitions and the risk for associated disruption to our business; our ability to identify, complete, and integrate targeted acquisitions; the risk that restructuring or strategic divestitures will not provide business benefits; maintaining effective distribution; dealers and customers being able to access adequate financing; inventory reductions by dealers, retailers, or independent boat builders; requirements for us to repurchase inventory; risks related to the Freedom Boat Club franchise business model; outages, breaches, or other cybersecurity events regarding our technology systems, which have affected and could further affect manufacturing and business operations and could result in lost or stolen information and associated remediation costs; our ability to protect our brands and intellectual property; changes to trade policy and tariffs; an impairment to the value of goodwill and other assets; product liability, warranty, and other claims risks; legal, environmental, and other regulatory compliance, including increased costs, fines, and reputational risks; changes in income tax legislation or enforcement; managing our share repurchases; and risks associated with certain divisive shareholder activist actions.

Additional risk factors are included in the 2023 Form 10-K. Forward-looking statements speak only as of the date on which they are made, and Brunswick does not undertake any obligation to update them to reflect events or circumstances after the date of this Quarterly Report on Form 10-Q.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

We are exposed to market risk from changes in foreign currency exchange rates, interest rates and commodity prices. We enter into various hedging transactions to mitigate these risks in accordance with guidelines established by our management. We do not use financial instruments for trading or speculative purposes. Our risk management objectives are described in **Note 5 – Financial Instruments** in the Notes to Condensed Consolidated Financial Statements and Note 12 in the Notes to Consolidated Financial Statements in the 2023 Form 10-K.

There have been no significant changes to our market risk since December 31, 2023. For a discussion of exposure to market risk, refer to Part II, Item 7A – Quantitative and Qualitative Disclosures about Market Risk, set forth in the 2023 Form 10-K.

Item 4. Controls and Procedures

Under the supervision and with the participation of our management, including the Chief Executive Officer and the Chief Financial Officer (our principal executive officer and principal financial officer, respectively), we have evaluated our disclosure controls and procedures (as defined in Securities Exchange Act Rules 13a-15(e) and 15d-15(e)) as of the end of the period covered by this Quarterly Report. Based upon that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures are effective. There were no changes in our internal control over financial reporting during the fiscal quarter covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION**Item 1A. Risk Factors**

There have been no material changes from the risk factors previously disclosed in Part I, "Item 1A. Risk Factors" in our 2023 Form 10-K.

Item 5. Other Information

Securities Trading Plans of Executive Officers and Directors

Rule 10b5-1 under the Exchange Act provides an affirmative defense that enables pre-arranged transactions in securities in a manner that avoids concerns about initiating transactions at a future date while possibly in possession of material nonpublic information. Our Insider Trading and Unauthorized Disclosures Policy permits our officers and directors to enter into trading plans designed to comply with Rule 10b5-1.

During the quarterly period ended March 30, 2024, none of our officers (as defined in Rule 16a-1(f) under the Exchange Act) or directors adopted or terminated a Rule 10b5-1 trading plan or adopted or terminated a non-Rule 10b5-1 trading arrangement (as defined in Item 408(c) of Regulation S-K). On October 27, 2023, Nancy E. Cooper, our Board Chair, adopted a Rule 10b5-1 trading arrangement providing for the sale each quarter of 35 percent of net shares of her Director compensation paid in common stock. The duration of the trading arrangement is until November 11, 2024, or earlier if all transactions under the trading arrangement are completed. The trading arrangement is intended to satisfy the affirmative defense in Rule 10b5-1(c).
